

CONFERENCES WILL BE OPEN TO THE PUBLIC

Talks in Both French and English

BEGIN APRIL 5
Morning, Afternoon and Evening Sessions for One Week

Evening sessions open to the public when the more important speakers will be heard will mark the forthcoming triennial conference of the National Council of Education. A full program has been drawn up including morning afternoon and evening sessions for the week of April 5th. Conferences in both French and English will be carried on simultaneously in the Montreal High School, which has been chosen as most suitable for the occasion.

The Duchess of Atholl, second woman in English history to hold government office, Sir Walford Davies, famous musical critic, Dr. T. Hunt Morgan, and Dr. H. M. Tery are the English speaking speakers at the evening sessions. A concert by a choir of 500 school children has been arranged for the night on which Sir Walford Davies will speak.

Besides the speakers already announced as having accepted invitations to present addresses, several more have been added to the list. Notably among these are Sir John Adams well-known educationalist and Sir Robert Falconer Principal of Toronto University. Dr. Dudley Woodhead of our own University is the only speaker from McGill. Discussions will follow the addresses on several of the subjects at afternoon sessions.

The program which has been provisionally drawn up is as follows:—
April 5th Monday Reception given by Mr. E. W. Beatty in honour of speakers and delegates and attended by the Governor-General who will make some remarks.

April 6th Tuesday—10 a.m. Chairman—M. Edouard Monpetit. Speakers—Sir John Adams, Monsieur S. Charley. "The place of Language in the National Life."

3 p.m. English
Discussion—"The Place of Language in the National Life."

3 p.m. French
Chairman—Abbe Groulx—"Organisation de l'enseignement de l'Histoire du Canada."

4 p.m. Meeting of National Council of Education as at present constituted

Evening—Chairman: Mr. E. W. Beatty (calling on Mr. Massey to welcome the speakers).
Speakers—Senator Andre Honnorat "La Culture Française" Dr. H. M. Tery "Education as a Factor in Mutual Understanding."

(Continued on Page Two)

ARTS MEN WON IN CLASS GAMES

Third Year Arts Trounced Medicine Juniors 4-3

Two fast, clean games were played in the interclass hockey league last night which resulted in victories for the teams from the Faculty of Arts. Arts III defeated Med III by a score of 4-2, while Arts I overcame Law I to the tune of 2-1.

Arts III—Med III

In the game between third year Arts and third year Medicine, the doctors got going as soon as the puck was faced off. The Arts men were slow in getting started and their efforts at combination proved futile in the opening minutes of play. Due to some brilliant play on the part of the Medicine forwards, the Arts team soon found themselves facing a deficit of two goals. Then it was that the team began to settle down. The forwards started to combine better, and before long Davidson shot the puck past Brown for Arts first goal. There was no further scoring in the first period and the score at half time read Med, III 2 Arts III 1.

The Arts forwards again took the offensive in the second half. Both sides were travelling at a faster rate.

(Continued from Page Three)

OTTAWA TRIP

The following men are requested by Manager Petzold to be at the Bonaventure Hotel on Saturday at 12:30 p.m. midday: J. Jaridine, D. J. Forsythe, L. A. MacLaren, Vic Clarholm, Les Parsons, W. Kyle, M. H. Moore, M. Gibbons.

Cliff Menzies' Orchestra To Play At Union

The well-known Cliff Menzies' orchestra will play at the jazz tea in the Union this afternoon. Cliff Menzies, of Med. '26, has been in orchestral organizations for several years and his orchestra has received distinct recognition in Montreal and elsewhere. The band played at the "Venetian" last summer and since October has been playing in Winnipeg. They are to be in Montreal for a short stay and are then to go to the States to fill several engagements. This afternoon's jazz tea is a treat not to be missed.

CHEMICAL SOCIETY

There will be a meeting of the Chemical Society to-day at 5:00 p.m. in the Chemistry and Mining Building when Mr. W. R. Allen of the Ciba Co. Ltd. of Montreal will give an address on Dyeing Difficulties. The lecture will be of a popular character and all who are interested are invited to attend.

MISS MacSPORRAN WINS DEBATING PRIZE

Amusing Meeting of Societe Francaise Yesterday at R. V. C.

An unusual meeting of the Societe Francaise took place in the Royal Victoria College yesterday afternoon with a large crowd attending.

The president, Miss Ratner, began the programme with the announcement of a new feature in the form of a "Debate Impromptu" in which more than twenty students took part. The plan of procedure began with the president calling forward two persons at a time who chose their subject and respective view point from two separate piles of slips placed on a table. Three minutes were allowed for consideration prior to the four minutes allotted for discussion.

The debates, though necessarily short, were characterized by much wit, ready thought and fluency of speech. The subjects were as humorous and as various as the manner in which they were dealt with, evoking at all times much laughter, especially during the different contentions that "La vache est mieux que le chaud chien" and "Le mariage de l'amour est mieux que le mariage de convention."

Local interest and disturbances were not forgotten during rhetorical attempts to convince that an excavation is more interesting than a professor. This individual also came into further prominence when attempts were made to prove that students are more necessary than professors and especially in the debate relating to the subject whether pretty girls should be excluded or not from a university. One young mademoiselle was even most anxious to prove that "Le poudre du visage est plus dangereux que le poudre du fusil."

Madame Furness acted as a most able judge who, before announcing her decision, remarked in her inimitable witty way on the difficulty she had in coming to a decision in naming the winners, when such an exposition of talent had been given by many.

However, the final decision accorded the first prize in the form of a beautiful little loving cup to Miss Maymie MacSporran for having most interestingly and fluently upheld her supposed conviction that refreshments ought to be served during lectures. The second prize was awarded to Miss Barre for her broad-minded insistence that women have not done better than men. Miss Benning won the third prize. Before adjournment tea was served.

EXTENSION COURSE

Beginning Saturday of this week an Extension Course of ten lectures in connection with the Conservatorium of Music is to be given.

The subject to be dealt with is Sound and its relationship to music. For the present, the lectures will be given from 12 to 1 on Saturday by Professor H. E. Relliey in the MacDonald Physics Building. These lectures will be illustrated by experiments and will be open to the undergraduates students in other faculties.

SMOKER

English Rugby smoker is to be held at the Mount Royal Hotel, Mezzanine Floor at 8:30 p.m. Saturday, Feb. 6 under the auspices of the Montreal English Club for the benefit of all enthusiasts. The cost is one dollar and all members of the McGill English Rugby club are cordially invited.

INTERESTING GROUP HEADED BY DR. ROBERTS

Enthusiastic Circle Discussed Religious Questions

TWENTY-FOUR PRESENT

"If There Were no Sin Would There be any Gospel to Preach?"

"If there were no sin would there be a Gospel to preach?" was the salient question at last night's study group led by Dr. Roberts. The group first considered the main points of the Gospel teaching. It then discussed the reasons why mankind needed a Gospel. Following this Dr. Roberts asked the group whether they thought that the degeneracy in the Nature of mankind belonged to the scheme of Creation or whether it had suddenly appeared at some far back period of history. If so could mankind ever reach the former ideal state? This was the purpose of the gospel, and if the state were reached would there then be any need of a form of teaching?

Dr. Roberts believed that there had at one time been a golden age in which mankind was without sin. That is to say they were as free from conscious degeneracy as are the animals. Sin was defined as a wilful and conscious harboring of this natural degeneracy. To uphold his view that man's nature had not always been imperfect Dr. Roberts forwarded several suggestions. First he stated that all peoples have at some time or other anticipated a Golden Age. He then quoted U. J. Perry of the University of London who stated after much study in archaeology that as yet no indications have been found of any warlike weapons belonging to the very primitive man. There were many household implements of flint and stone but no weapons of defence or offence. Further he stated that all we absolutely know about the primitive cave-man is in his favour. Moreover, modern mankind seems to have lost the communal sense that the prehistoric races seem to have had.

The group then traced the evolution of mankind from the original protoplasm which had only sense. There came sensibility with sight and feeling and so on. After this conscience, and then personality. "Why should there not be another step in the development of the character of man?" asked Dr. Roberts. He then said that he believed that Altruism would from now on be a fundamental of the evolution of man and that the Gospel according to St. John would prove to be the ruling theme.

After having led up to the original question in this way Dr. Roberts then asked the group to consider the issue before the next meeting.

The meeting was well attended, there being twenty-four persons present. The group was enthusiastic and willing to think things through.

GIRLS MAKE READY FOR COMING GAMES

Seek Support for Intercollegiate Basketball Matches

The R.V.C. senior basketball team are now hard at work preparing for the Women's Intercollegiate Basketball matches which are scheduled to take place on Feb. 18, 19, and 20 in the Convocation Hall of the Royal Victoria College.

Queen's and Varsity are both sending down teams to compete, and the three teams will play each other in order to determine the champions for the year. McGill has not won the trophy since 1922, and the players are anxious to snatch a victory from the strong Varsity squad who have held the championship for the last two seasons.

The McGill team for this year seems to be if anything stronger than it has been in the last few seasons. The girls have played all the strongest local teams this fall and have thus far come out on top on all occasions. Great interest has been shown in the game, and the members of the senior team have been in strict training for some weeks.

A plea for support from the student body at McGill was received by Basil C. MacLenn, president of the Students' Council from the R.V.C. committee recently, in which the men at McGill were asked to support the intercollegiate matches as heartily as they did when the meet was last held here. Tickets for the matches on the three days can be bought from the posters of the R.V.C. and the McGill Union, as well as from the R.V.C. representatives—Miss R. Whitley of first year; Miss R. Granger of second year; Miss A. Turner of third year; Miss M. Hinchinson of fourth year; and Miss Munroe in the Office of the Department of Physical Education.

NEW SCHOLARSHIPS

Word was received yesterday that a scholarship amounting to \$1000 had been donated to the Medical Faculty by the stockbroking firm of MacDougall and Cowans, and that it had been awarded to Dr. Dudley Ross, of the class of Med. '21. Dudley Ross will be remembered as the Captain of the Senior Football Team in 1921.

"The scholarship has been given for one year only to provide for a definite piece of research work," said Dr. E. W. Archibald, director of the department of Surgery. He stated also that whenever a worthy piece of surgical work presents itself, an appeal is made for the money to finance it.

RELATIONS OF PHILOSOPHY AND PHYSICS

Philosophical Society to Hear Mr. Taylor

STRATHCONA HALL
Subject to be "Eddington Versus Whitehead"

The next open meeting of the Philosophical Society, is to take place in Strathcona Hall at 8:15 p.m. this evening when the President will deliver an address on "Eddington versus Whitehead: concerning the existence of the world of Physics."

The executive has taken advantage in the past of many opportunities which have enabled them to embark on a programme, somewhat unusual in the history of the Society, consisting of a series of addresses dealing with the relations of philosophy to other fields of thought. The first meeting for the year heard an address on "Philosophy and Law," and this, the third meeting, will be concerned with the relations between philosophy and Physics, or more particularly with the Theory of Relativity as developed by Einstein and his contemporaries. However, the speaker will not pretend to a technical treatment of the Relativity Theory proper, but rather with the philosophical implications of the theory. Mr. Taylor aims first to determine in particular the philosophical and ontological standpoints resulting from the conclusion of two famous Relativists, namely Dr. A. S. Eddington, Plumian Professor of Astronomy and Experimental Philosophy at Cambridge England, and Dr. A. N. Whitehead, formerly Professor at the University of London, and second to contrast these standpoints and identify them with those already existing in philosophy.

In the course of this the points of contact between Science and Philosophy will be dealt with, together with the conditions and limitations of the Scientific method. The application of the theory of knowledge to Relativity, should result in a consideration of the problem of existence. Whether this existence is real, of a mental nature, or established extrinsically of the physical world, is a point which should be of vital interest to those Scientists who worship at the Shrine of Physics.

It is hoped that some of those who are interested in Relativity, with the possibility of a few who understand the theory, will attend, as additional points should be raised, and some conclusions of the speaker questioned.

All interested are cordially invited to attend.

POSTPONEMENT

The meeting of the Historical Club scheduled for next Tuesday, has been postponed until the following week, when Frank Godine and Allan Latham will speak on Political Relations between the United States and Europe. The meeting will be held at the home of Mr. W. S. Johnson, K.C.

ARTS '28 HOCKEY

The following men will represent second year Arts in their match against second year Medicine this afternoon at six o'clock on the Campus rink—Munro, Roberts, Reed, Pinkerton, MacKay, Marston, Davis, Home and Carson.

THEOLOGISTS TO BE ADDRESSED BY SIR ARTHUR

Annual Banquet Will be in Union

NIGHT OF FEB. 24

Further Plans Will Soon be Made Public by Executive

That the third Annual Banquet of the Theological Undergraduate Society would take place on the twenty-fourth of this month was decided at a meeting of the executive held yesterday afternoon. Although the date is still some distance away, plans have been made which cover many of the details of the affair.

It was announced at the meeting that three hotels had been visited with a view to obtaining the prices for the dinner; after this investigation it was discovered that the Union would be able to cater for the meal at a more reasonable figure than any of the hotels could promise. The menu which Mr. Honegger suggested was a very appetising one, and there is little doubt that any Theolog will go away hungry. When it is considered that the dinner is to be one which includes turkey, the fact that it is to be served for one dollar is remarkable. Every student in Theology, as well as every Arts student who has the ministry in view is expected to be at the banquet.

The report that Principal Sir Arthur Currie had accepted the invitation extended to him to address the gathering on the occasion of the dinner was received by the executive with pleasure. They were especially appreciative when they heard that the Principal had several other engagements during the same week, and would actually have to leave the banquet at ten o'clock in order to catch a train. The speaker at the dinner last year was Canon Allan Shatford, while at the first banquet of the Society two years ago Professor W. T. Waugh, now Head of the Department of History, gave the main address.

Among the guests who are already sure of being present are the Dean of the Theological Faculty, Dr. D. L. Ritchie, Dr. Rexford, principal of the Anglican College; and Dr. Welsh, principal of the Presbyterian College. An invitation has also been sent to the president of the Presbyterian Students Association, Grant Hollingworth, and it is hoped that some of the members of the Association will be present. Further information regarding the dinner will be available before the date set for it, such as the details of the sale of tickets, and the musical programme. The officers of the Theological Undergraduate Society, which links up all Theologs, are:—

President: Norman Egerton
Vice-President: Scott Milley
Secretary: Errol Amaron
Treasurer: Earl Eddy.

INTERCOLLEGIATE TEAM IS CHOSEN

Wrestlers Will Hold Road Workouts for Training

In order to get the men in the best possible condition for the intercollegiate contests which are to be held at Kingston in the near future, the wrestling team have decided to take up road work. The first run will be held today at half past five o'clock.

The men will meet at Strathcona Hall at this time, and will proceed along Sherbrooke to McTavish, up McTavish to Pine Ave, along as far as Guy, down Guy, and then back along Sherbrooke to Strathcona Hall. This idea of holding road workouts for the wrestling team is something of a new departure, and the organizers of the scheme hope that all the men will be on hand to give it a try-out.

Every member of the McGill team was out at practice at Strathcona Hall yesterday afternoon, and they all seem in excellent condition for the coming events. Another practice will be held on Saturday afternoon at 4:45 at Strathcona Hall.

It was announced last night that the following team had been selected to represent McGill in the Intercollegiate Meet:

112 lb.—Silver,
117 lb.—Byrant,
123 lb.—Guillemelli,
141 lb.—Greenberg,
145 lb.—Touzel,
155 lb.—Bradley,
174 lb.—Vineberg,
Heavy—Martineau.
Of these, Silver and Greenberg are the only two men who were on last year's team. The others, however, have all shown great promise in practice, and they are expected to fill the positions of those who left last year.

Rowing Club To Hold Annual Meeting Today

The executive of the rowing club met yesterday to discuss the business that would arise at the annual meeting to be held to-day at 5:15 in the Union. The President of the club gave a report of the activities and finances of the club and mentioned the tentative changes in the constitution. The following applications for membership were accepted by the board—Guillemelli, Carter (Graduates), Monroe, Hay, Taylor, Ogilvie. Fees are payable in election. At to-day's meeting definite plans will be made for raising money for the purchase of a racing shell eight in which to race Varsity next fall. Applications for residence at the Lakeside club house, will also be taken. Living expenses at the club house amount to about twenty-five dollars a month and last year proved to be very enjoyable.

Crews are at present being formed and practice is to start shortly. It is hoped to be on the water by May first.

STUDENTS INVITED TO SUNDAY SOCIAL

National S. C. M. Secretaries Will be Present

That there will be an opportunity on Sunday afternoon for all who are interested to better their acquaintance with the Student Christian Association and its work was assured last evening by Errol C. Amaron, secretary of the local association. The informal meeting which has been arranged for Sunday will have as its guests two of the secretaries of the Student Christian Movement of Canada, Mr. Ernest Clarke and Miss Rutherford, and they will seek to outline both the work which they have observed in other Canadian universities and also the deals to which the McGill group should strive to attain.

For some time there has been a feeling in some quarters that the S. C. A. is a closed organization, which has no place for anyone outside of a supposed select few. There may have been in the past some grounds for entertaining such an idea, but at the present a serious attempt is being made to show the inadequacy of such a viewpoint. The S. C. A. is the only religious organization on the campus, and there are very few who will suggest that there is no place for such an association in a college of twenty-five hundred students. But it is only natural that insofar as it lacks the interest and support of a large number of undergraduates, it cannot hope to carry on as they would have it do.

It is fully expected that on Sunday afternoon at four o'clock there will be a number of men and women at Strathcona Hall who have never taken any active part in the work of the Association; for it is to a large extent with them in mind that the meeting has been planned. To all, then, a cordial invitation is extended as the coming meeting will probably be one of the last of this character during the session.

M. S. P. E. TO VISIT LENNOXVILLE TO-DAY

A trip to Lennoxville for a basketball match has been eagerly anticipated by the McGill School of Physical Education for a long time.

At any time a contest is entered into with much pleasure but this occasion proves to be a special one this time. The M. S. P. E. team has not visited points outside of Montreal for several seasons. The only matches which have been played are those against the city teams. Therefore, the players are looking forward to a good game at Lennoxville and to the opportunity of meeting other college girls.

The return match will be contested at the Y. W. C. A. on February the 26th.

RUGGER DINNER

The English Rugby Football Club will hold a dinner at the Queen's Hotel on the evening of February 15th. It is sincerely hoped that all members of the club will be present and a cordial invitation is extended to all those who are interested. It is expected that the cost of the dinner will be about \$2.50—possibly less, depending on the numbers present. Those intending to be present at the dinner should advise J. Crandall, Untown 3521W as soon as possible.

PLAYERS' CLUB

There will be a meeting at 5 p.m. to-day in the Union for the purpose of casting the new play. All those not yet cast who are willing to take a part in the forthcoming production are requested to attend.

MEMBERS OF OUTING CLUB PRACTISING

Canadian Divisional Winter Sports Meet

FEB. 13 AND 14

Several American Colleges Have Been Invited

With the first event in the Canadian Divisional Winter Sports Meet due to commence a week from today, members of the McGill Winter Outing Club are hard at work putting the finishing touches to their work in preparation for the big event. Skiers, ski-jumpers, snow-shoers, speed and fancy skaters have been practising daily, and are now fast rounding into shape.

Captain Thompson has taken a great deal of trouble arranging the programme for the meet, and he now has it practically completed. Next Friday afternoon the first events will be run off. These will be the proficiency contest and the one mile ski race.

On Saturday morning the events scheduled are the seven mile cross-country ski-race, and the five mile snowshoe race. In the afternoon the ski-jumping will be held. As yet it has not been decided when the skating events will be held. No entries for the fancy skating have been received, and it is possible that if no other colleges enter men that this event will be scratched. University of Montreal have several experienced men entered in the speed-skating and McGill will have to look to her laurels in this event. Although it has not been arranged when and where these events will be held, it is expected that the M. A. A. rink will be used.

Keen competition is anticipated in the ski-jumping contest as invitations have been sent to half a dozen colleges in the Eastern United States to send up two men each for this event. These colleges include Dartmouth, Williams, New Hampshire, Middlebury, Bates and Harvard. All these colleges can send up capable and experienced men, and although no replies have as yet been received, it is expected that several of these colleges will send up men.

McGill's jumpers have been practising at the Cote des Neiges jump every day and have shown marked improvement during the last two weeks. John McLaughlin was down at Newport last week-end, and took part in a jumping contest held there in conjunction with the opening of a new club-house. All the best jumpers in the Eastern States were there, and the event was won by Ralph Monsen, formerly of Montreal. McLaughlin showed his best form in finishing sixth position for McGill. Other jumpers who have been showing good form are Rutherford and Martin.

(Continued on Page Two)

LEACOCK WRITES IN REVIEW ON DEBATES

Fortnightly Out To-day Has Article From Pen of Noted Humorist

"On Debates at College" written for The McGill Fortnightly Review by Dr. Stephen Leacock will feature the issue which will make its appearance today on the campus at 10 o'clock. The article discusses debates at the university as they are arranged and deals among other things, with the choice of subjects and the matter of preparation. It is written in Dr. Leacock's usual humorous vein and will be of the greatest interest to the student body, the editors state.

The issue is the sixth of the ten numbers promised by the editors of the Review. Articles are in process of preparation for the remaining issues and there is every indication, the editors state, that the remaining numbers will contain many interesting features dealing with varied subjects.

The issue which comes out today will go on sale sharp at 10 o'clock at the Union, the Biological Building, the Engineering Building, the Montreal Book Room, and Burton's Limited.

In addition to Dr. Leacock's article a short humorous tale is being featured in the number. It is entitled "The Defective Executive" and is expected, the editors declare, to arouse considerable comment about the campus.

MONTREAL, FRIDAY, FEBRUARY 5, 1926.

McGILL AND THE WORLD.

In the course of the introduction to his speech in the debate with the Imperial Team at the Mount Royal Hotel, one of the McGill representatives mentioned the fact that the team from the Canadian University was in itself far from being a local grouping. Going on to explain this statement, he said that he and his colleagues represented two of the dominions, and three great races. What he said probably came as a surprise to many of those at the debate, although when the cosmopolitan character of McGill is taken into consideration, it does not seem so strange.

It cannot be denied that more and more McGill is taking its place as a world factor. From time to time letters have appeared in these columns from faraway graduates who have taken their place in the affairs of distant nations. Always there is expressed in them the warmth of feeling which they retain for their Alma Mater, and there is no doubt that wherever they are, McGill is known.

These facts provide an inspiration for the verdant freshman, but they should also be a challenge to all mature undergraduates. For every one who goes out from the portals of the University carries with him a portion of the spirit with which it is inspired, and carries, too, a part of the responsibility of maintaining that spirit. Insofar as he takes something of real value from the university training which he has been privileged to share, and carries it with him into the world, just so far will the influence of McGill in the world be broadened. For, as many have said before, an university is neither more nor less than the men and women who compose it.

When the present situation is reviewed, one thing stands out above all. Since, in a figurative sense, the world comes to McGill, and in a very real sense, McGill goes out to the world, the university should not fail to possess that breadth of attitude which is characteristic of any tolerant group of men and women.

United States' Canadian Investments

(Monthly Letter of Royal Bank).

In an article published in the January number of the *Spur*, Mr. C. E. Neill, the General Manager of the Royal Bank wrote:

In the ten years since the beginning of the world war a remarkable change has taken place in international and financial relationships. The United States is now a great creditor nation and New York as its financial centre has become the chief market of investment capital, although probably London, as a result of her longer experience and foreign banking machinery still retains a commanding position in financing international trade. In 1924 foreign flotations in New York market, including Canadian issues, aggregated \$1,000,000,000 while the flotation of foreign securities in London including British Colonial issues were only \$550,000,000 or about one half of those of the United States.

Notwithstanding the dominating position she now occupies as the world's capital market, it should not be forgotten that the United States has been the greatest external borrower in history. The most rapid economic development that the world has ever seen was made possible only by the investment of foreign capital and it has been estimated that England alone advanced the United States in the aggregate, no less than three billion of dollars. At the outbreak of the war the exportable surplus of commodities sufficed to pay interest charges on the external debt of the country, but left the repayment of capital under normal conditions of peace a problem of the longer economic future. The opportunities created by the war however gave rise to an immense increase in exports to Europe payment of which was largely made from the proceeds of the sale by England of her dollar securities and that a capital liability which has been growing for over two hundred years was within a comparatively short period of time almost completely discharged.

I have simply drawn attention to these historical facts in order to emphasize by comparison the position of Canada. In the matter of development, Canada is passing through the same progressive stages which marked the early history of the United States. Canada is a young country, rich in

promise, requiring population and the investment of capital to develop her arable lands, mines, forest resources, water power and other natural wealth. Geography, racial kinship, identity of language have led to a very strong natural relationship between Canada and the United States. Canada was one of the first foreign countries to attract American capital and with resources even greater than those of her southern neighbors in proportion to population, she is still a most attractive field both to the conservative investor and the enterprising capitalist. According to an estimate based on the best information available, the foreign investments of the United States at the end of 1924 amounted to approximately \$9,500,000,000, roughly distributed as follows:—

(Millions of Dollars)
Canada \$2,545.
Latin America 4,140.
Europe 2,115.
Asia and Oceania 722.

Prior to the war there was a regular flow of capital from Great Britain to Canada and in 1913 it was estimated that Great Britain held 77% of the outside investments in Canada and the United States only 17%. With the outbreak of the war the supply of British Capital ceased and since that time American capital has been gradually invested in Canada in increasing amounts until in 1923 it was calculated that the amount of American capital in Canada was in excess of 52% of the total external debt. A tentative compilation reveals that Dominion and Municipal Government securities formed a large proportion of the total, amounting to \$1,125,000,000 while industrial securities and direct investments in Canada through the establishment of branches by manufacturers, etc., is estimated at \$1,420,000,000.

The investment of capital in any considerable amounts in a country for its development results in an inflow of goods and capital instruments. For the fiscal year ended 31st March 1925, Canada bought from the United States \$519,000,256 of goods representing 64% of her total imports and sold to the United States \$417,457,171. Each country is a leading consumer of the other's products. Next to Great Britain, Canada is the best customer of the

C. O. T. C. ORDRES

Battalion Orders by Lieut Col. R. R. Thompson, M.C., O.C.
For the week ending February 13th, 1926.
Orderly Officer:—Lieut. C. A. Grier.
Next for Duty:—Lieut. G. M. Hyde.

PARADES

Battalion Parade
The Battalion will parade at the Craig St. Armoury on Tuesday, February 9th, 1926 from 8-10 p.m.

LECTURES

Infantry
February 8th and 11th, 5.15 p.m. Room 33, Engineering Building.
Examination Papers—Capt. R. E. Balders M. C.

Cavalry
February 10th, 5.15 p.m. Room 33, Engineering Building.
Animal Management—Capt. L. D. Hammond.

TRAINING

Infantry
Feb. 9th, 8.10-8.55—Musketry.
Feb. 9th, 9.05-9.50—Company Drill (Revision).

"B" Certificate
Cadet A. N. Harris has passed a supplemental examination completing the requirements for the "B" Certificate.

DATES OF EXAMINATIONS

Practical
Medical:—Wednesday, February 10th, 8-10 p.m. Molson Hall.

Practical
Cavalry and Infantry:—Evening of February 18th and morning of February 21st. Hours and place to be announced later.

Written
Examinations, all branches:—March 9th and 10th.

The following names have been entered for the examinations:—

"B" Certificate

Cavalry
Moodie, Edward Campbell
Seadding, Simcoe Crawford
Snow, Royal B. L.
Stanger, Harry Boyd

Infantry
Kingston, George Harold

Medicine
Brown, Ronald Earl
Gilldon, Edward Cecil

"A" Certificate

Cavalry
Brodie, Edgar William

United States, receiving from her manufactured goods for the most part, giving employment to American labor, and sending in exchange needed raw materials of forest and mine and agricultural products.

While I have nothing whatever to say upon the international trade policy of the United States or its adverse effect on our basic industries, I would merely state as an economic truth that between nations as between individuals, there is a mutuality of interest and that if one country increases its production and expands its market it also increases its buying power for the products of other countries. With an investment in Canada of approximately 2½ billion dollars and an annual trade in commodities of nearly a billion dollars, there exists a business relationship between the United States and this country calling for the most thoughtful consideration on both sides.

Mistress (Instructing new butler):
"Now how do you address a baronet?"
Butler: "Your lordship."
"And his lady?"
"Your ladyship."
"And an admiral?"
"Er—your flagship!"

My girl is so dumb that she thinks that the blues is a debate—White Mule.

MEMBERS OF OUTING CLUB PRACTISING

(Continued from Page One)
The sk-runners have not held any organized runs recently, but Captain Thompson, Elliot and Taylor have been turning out regularly, as well as other men who are trying for a place on the team.

More interest has been taken in snow-shoeing in the last week or so, and there are now several men training regularly for this work. Grey-Donald and Palmer have shown some ability at this sport and it is hoped that Don Walsh will decide to turn out with the men in the near future.

The fancy skaters have been practicing under the guidance of a professional coach for some time, and are fast rounding into shape. Bolton, who made a good showing in the United States National Meet a few weeks ago, is almost sure to make a place on the team this year; while Campbell-Brown of last year's team and a new man named Johnson are also contenders who must be considered. Regular practices are held every Thursday from 5-6, and Saturday from 3-4 at the Hollow rink. Several men have also been turning out for speed-skating and it is expected that McGill will find a couple of men to represent her in this event.

Captain Thompson is well pleased with the way the team have been working, and he is confident that his men will be in the best possible form by next week. Any men who are anxious to make a place on the team have still time to turn out, as the McGill team will be picked on the showing made in the Canadian Divisional Meet next week.

CONFERENCES WILL BE OPENED TO PUBLIC

April 10th Saturday

10 a.m. Meeting of Executive Committee of Council.

The greatly increased costs of recent years have caused the authorities of Yale University to announce an increase in its undergraduate tuition charge from \$200 to \$350. The announcement also added that additional appropriations would be made to prevent the increase from adding to the financial burdens of the self-supporting students, who now comprise one-third of the undergraduate body and are receiving aid from the University to the amount of \$271,303 a year.

He (finishing slightly off-color joke) Do you see the point?
She: If it's what I think it is, I don't and your no gentleman. —Mercury

RED AND WHITE REVUE NOTES

Work for the Red and White Revue progresses steadily and each day there are practices of one or other of the groups or choruses. The announcement for to-day's practices is as follows:—

Group No 1.—In the Music Room of the Union at 4 p.m.
Group No 2.—In Strathcona Hall at 5 p.m.

Sale of Tickets

Regarding the sale of tickets, details have now been announced by two of the years in Arts. The president of the senior year announced that members of Arts '26 could obtain their tickets at once by seeing or speaking to either D. R. Logan, J. H. Murphy or S. A. MacDonald. Only two tickets will be sold to any man, and the rule will be "first come, first served."

In Arts '27 a rather more elaborate system has been devised. The various classes of tickets have been allotted to different men, so that any one who wants a ticket for the Matinee will know where to get it. As is now fairly generally known, the Revue will be presented on Tuesday, Wednesday, Thursday and Saturday evenings, March 2, 3, 4 and 5 also on Saturday afternoon, March 6. The men who are in charge of the various groups of tickets are as follows:—

Charles Yule—Orchestra and 1st Balcony—\$1.55
E. H. P. Hamilton—1st Balcony—\$0.85
Jos. Luke—1st Balcony—\$0.55
Art Moore—2nd Balcony—\$0.55
Tom Henderson—All Matinee Tickets—\$0.55 to \$1.65.

THOUGHTS UPON MEETING ONE'S ADVISOR

This is his room. Should I enter boldly without knocking or should I walk in as humbly as I feel. There, I've gone and knocked! Heavens, what a surly "come in!"
"Good afternoon Professor. Did you wish to speak to me?"
He looks as though he would relish biting my head off. I wonder whether that frown is natural or only put there for my benefit? Now comes the catechism. I can tell it by the look in his eye.

"I beg your pardon? Latin? Oh yes, I find Latin quite easy." What made me say that, for Goodness' Sake? I failed in that subject!

"German? Well, I find it fairly easy."
Wonder if he knows I failed in his subject? Shall I tell him now or wait till he finds out? You know I think he must be a very learned man; he has a lot of books in his room and they look like heavy ones, too. His shoes aren't polished though. That means that he's probably married. Still, I don't know. Perhaps he isn't. Wow, look at that scowl on his face! He's looking at my marks! I knew I was in for it this afternoon!

"Yes, now I remember it I did fail in your subject Professor. No, perhaps I haven't been working as hard as I might have."

Sarcastic old thing! I know I haven't been, but all the same—"Thank you Professor. I'll work hard at those two subjects. You've helped me such a lot. Good afternoon!"

What was a day! Thank Goodness that's over for another month! I feel positively weak. Wonder if he was as glad to see the last of me as I was of him? —Mina Smith.

'VARSITY TEAM COME TO SEEK CHAMPIONSHIP

The University of Toronto senior hockey team and a large crowd of undergraduate supporters are expected to arrive in town tomorrow morning prepared to do their utmost to take a strange hold on the Intercollegiate Senior Hockey Championship over the week-end.

The team is scheduled to meet McGill tomorrow night and the University of Montreal on Monday, and if the Toronto men win both these games they will be Canadian Intercollegiate hockey champions for this year.

But they will not be champions unless they win both these games, and the McGill men at any rate are confident that they will have their work cut out to do so. Captain Art Abbott and his men have been hard at work ever since the game with the Toronto experts two weeks ago, and they have been spending their time in bolstering up the weak points discovered in that contest.

The return of McKies, the regular centre, to the forward line is expected to give the local team more punch in their attack. McKies is an experienced player and knows just the time to pass to his wing men. He and S. Germain have been combining

ARTS MEN WON IN CLASS GAMES

(Continued from Page One)

and some hard exciting hockey resulted Moore Arts right wing man evened the score with a fast shot from in front of the goal. Two other goals for Arts were notched up by Bazin, the sterling centre player; while Medicine added one more goal to their total. The game ended with Arts leading 4-3. Finlay refereed in a thoroughly satisfactory manner.

The teams lined-up as follows:—

ARTS III MED III

Goal	Goal
Saibil	Brown
Defence	Defence
Roy	Currie
Millen	Sutton
Centre	Centre
Bazin	Dunn
Wing	Wing
Davidson	Casey
Moore	Blair
Subs	Subs
	Dunn W.
	Aubrey
	McIsaac

Referee—Finlay

Arts I—Law I

Arts freshmen proved themselves superior to Law I in another hard, fast and exciting contest. The score at the end of the game was 3-1 for the Arts men. Sherman, for the winners, played a stellar game, and turned back many shots from the sticks of the Law forwards in brilliant fashion. He

was ably supported by his defence, who played a fine brand of hockey.

Law put up a great fight throughout the contest and showed many flashes of brilliance throughout the game. Their forward, were not so effective as the Arts men, however, and they lost many chances of scoring. Both teams played a particularly clean brand of hockey, which made the game very enjoyable to players and spectators alike. Finlay handled the game with an iron hand.

The teams lined up as follows:—

ARTS I LAW I

Goal	Goal
Sherman	Kilberg
Defence	Defence
Jones	Cuddihy
McKenzie	Savard
Centre	Centre
Hinds	Lazarovitch
Wing	Wing
Hannahan	Goss
Kruger	Webster
Subs	Subs
Crandall	Ellison
Brownbridge	McLaughlin
	Miller

Referee—Finlay

A POPULAR FALLACY

That We Should Rise With the Lark

Many people think it a crime to lie in bed in the morning, not so it is to the contrary! Why should one get up? Just think how nice it is to lie in bed on a cold morning, and to think of those less fortunate mortals who have nine o'clocks.

There is no better time than the early morning, and no better place than bed in which to collect your thoughts. One wakes up refreshed, with a mind perfectly clear and ready for work. I am sure professors of

mathematics conquer their hardest problems in the morning, chemistry profs., their most diabolical equations and Latin profs. pick out their most barbarous of hexameters! Those of you who have been at college for more than a week will know of whom I speak.

Another thing, I'm not at all desirous of seeing the sun rise, having once or twice in my career seen it on my way home from a college dance. I think this event is much overrated, especially by poets and English profs. who, I strongly suspect have not seen it at all, unless under the same circumstances as I have. The good hours of the dawn are too sacred to waste on such observations, which I think show flagrant propensities.

It is very pleasant to recall one's dreams, and study one's nightmares in the light of day, to the accompaniment of delicious smells arising from frying bacon, and coffee; also to rest with steadfast nerves nocturnal tragedies.

Those of you who know your Bible at all well, will perhaps have noticed in Proverbs a passage which says: "He that blesseth his friend with a loud voice rising early in the morning; it shall be counted a curse to him." So I am not alone in my views on this subject.—Even Holy Writ upholds me.—T. Sharp.

We wish to call the attention of the attorney general to the disgraceful fact that despite the fact we voted against prohibition McLaughlin, the ginger ale people have made Canada Dry.

IN THE SPRING FASHION PAGEANT THE TAILORED FROCK

Plays a pleasing part

35.00

IN Paris, London, New York, the tailleur frock "meets all comers" — has surpassed its success of previous seasons — has returned with greater prestige — greater distinction — greater popularity than ever!

Here is a frock that can be worn right away — that will be au fait in the Spring days soon to come. As exemplified in this medium-priced assemblage, it chooses imported Charmeen and Charmet Twill, and exploits them in frocks varying from the tailored to those of the more dressy type. Two-piece frocks are noticeable, flared models win their meed of favor, tiered skirts are to the fore, while the slim silhouette, of course still persists.

Tinsel threads an embroidered path of glory on many a model; colorful embroidered motifs and military braids also play a major part in the decoration scheme of things.

In the favored navy and black, as well as new colors—Santos, Oyster Grey, Pervenche, Beige, Japaca and Old Lilac. Sizes 16 to 40.

HENRY MORGAN & CO. LIMITED.

SWIMMING AND WATER-POLO

COMING CHAMPS DEFEAT JUNIORS IN CLOSE MEET

(By the Natatory Nymph)

This will never do. McGill Juniors last night succumbed to a snappy team from Montreal High School at the meet at the K. of C. Tank. The 200 yds in all McGill's meets appears to be the deciding factor and when Lyman defaulted at the start it left Matthews the lone representative and gave the High School the victory with 34½ points to 32, thus reversing last year's result.

The High School furnished the most brilliant Junior team that has been seen, for their time in winning from McGill by a touch in 1 min. 54 2-5 is only 10 secs. slower than the Canadian record for that distance and eclipses times which had stood up to two years ago when McGill quartet of Seniors made the record. A team like this in a few years will be Canadian Champions. M. Gibbons of McGill won two firsts. Diving and 50 yds free style, while M. Bourne of the High finished first in both 200 yds and 100 yds while he finished second in the 50 yds back stroke and sped home to victory for his relay team, although Gibbons with a 3 yard deficit to make up forged ahead but just missed by a foot.

H. Marcou gave a most graceful and useful exhibition in the 100 yds breast stroke and with a lead of half the tank came home in 1 min. 24 3-5 sec. C. P. Lyman crept away to finish first in the 50 yds back stroke in 36 secs dead time. Goddard secured the long plunge with 44 feet.

To make the defeat not so inglorious the Juniors scored a victory in the polo with three goals in. Defending the shallow end McGill went ahead with a spurt, although the competitors were in a state of lag after the longer grueling races at the conclusion of the swimming programme. Early on from a centre field (ussel Matthews put in the ball, but the whistle had

Diocesan College — Hatcher.
Presbyterian College—Lloyd, Woodhouse, Wadsworth, Schorf, Ginn, Armstrong.
Wesleyan—Milley, MacFarlane, Forsyth, Wilkinson, Bartlett, Bea, E. B. Brown, Cooper, Duncan, Edwards, Gamble, W. E. Johnston, Sellers.

Magazine Trebles

Much interest has been shown lately in the resignation of the staff of the Davidson College Magazine. The entire staff resigned when the faculty refused to recognize T. C. Barr as editor of the magazine after he was duly elected by the students of the college. The trouble originated when former editor Monk featured in the Thanksgiving number an anonymous article entitled "Dim Morning" and was thereupon expelled from the staff of the magazine. Barr the writer of the article was then nominated for editor-in-chief by the staff and then unanimously by the student body. The students seem to be solidly behind the staff and as a result many of the students think that the magazine will probably be discontinued.

For Better Service

Yellow Cab Company of Montreal, Limited, and Kennedy
Taxis, Limited - - - Montreal's greatest taxicab
Companies - - - join forces for your better service.

Every student at McGill knows Yellow Cabs and Kennedy Taxis. The splendid equipment, the prompt service, the courtesy of the drivers—the all 'round superiority of these two companies has given Montreal continent-wide fame for its unsurpassed taxicab service.

Now they are united for a still better service. Now, under one central management, there will be no overlapping of taxis at heavy duty points, there will be many more cars available, there will always be a cab awaiting your call when you want it and where you want it.

Great economies will be effected. Dual service stations will be eliminated, centralized control means administration costs and necessary overhead for the maintenance of equipment will be substantially reduced. It is expected that, in a short time, following the policy that has been strictly adhered to in the past, these savings will be passed on to the taxicab public of Montreal.

New equipment will be added to the present fleets of both companies. If you prefer Yellow Cabs—call PLateau 6161 as usual. If Kennedy Taxis are your choice, call Uptown 7600 and you'll get a Kennedy cab.

Yellow Drivurself System

Of vital interest to McGill Students is the new Yellow Drivurself System. In the near future a fleet of handsome sedans that you may DRIVE YOURSELF will be ready for operation.

Just call at our nearest station, say you want a Drivurself car and a luxurious sedan, lacquered a beautiful blue color, will be at your disposal in a minute. You have no gasoline or oil to buy, no repairs to make—the car is your own for as long as you like, to go where you like. For a surprisingly low cost you have all the pleasure of driving your own car, with none of the inconvenient upkeep costs. Watch for future announcements.
